

First Look at MDS 3.0 Version 1.17

Mary Madison, RN, RAC-CT, CDP
Clinical Consultant – Briggs Healthcare®

General Notes

Please enter your questions into the Question box in the control panel on the right side of your screen. I'll answer a few questions at the end, time permitting, then provide all Q&As in a document to be posted at: <https://briggshealthcare.blog/category/webinars/>

On slides with 2 text boxes as this slide is, the left text box shows the current MDS item; the right text box shows the updated item for v1.17

Agenda

-  version of the MDS 3.0 Item Set that will be used effective October 1, 2019
 - What's changed from the current version
 - What's new in the DRAFT version
 - What's happening in A0310B

- MDS items that relate to PDPM reimbursement

Goals

- See what the DRAFT item set looks like
- Begin education & preparations for the significant changes coming October 1st
- Anticipate release of the DRAFT RAI User's Manual
- Provide resources to utilize for education and websites to follow for updates as we move from DRAFT to FINAL

Each year on October 1st, CMS makes changes to the MDS Item Set

Some of the changes are for:

- ✓ Clarification
- ✓ IMPACT Act of 2014
- ✓ SNF Quality Reporting Program
- ✓ Requirements of Participation (RoPs)

Version 1.17 is seeing changes this year because of PDPM, IMPACT Act and SNF QRP

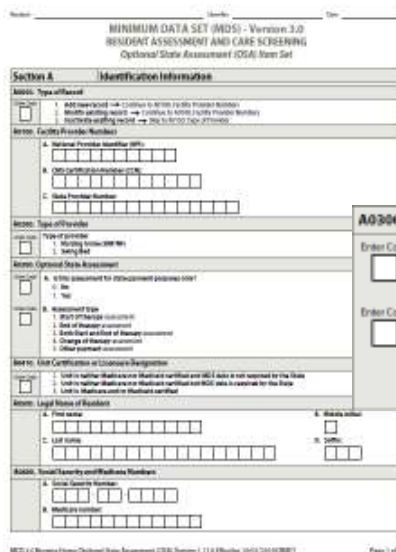

Importance of the MDS Item Set

- PDPM reimbursement is established solely from the MDS Item Set (*special 18% add-on to the nursing component of PDPM payment with entry of ICD-10-CM code B20 [AIDS] on the claim if your state does not allow you to code AIDS in Section I*); State-specific Medicaid case mix also based on MDS Item Set
- SNF QRPs and QMs (with exception of claims-based measures)
- Survey
- Nursing Home Compare

Item Set Changes

- Eight OMRA Item Subset Codes (ISCs) have been removed: NS, NSD, NO, NOD, SS, SSD, SO, and SOD
- Two new ISCs have been added: the Interim Payment Assessment (IPA) and the Optional State Assessment (OSA)

1. Yes

Did You Know?

- 74,000+ ICD-10-CM codes mapped in MDS software to calculate therapy payment components (RTP codes cannot map to PDPM)
- 28,000 configurations of PDPM payment based on MDS item coding

Now What Do I Do??

- Share the presentation & handouts with all staff on your team.
- Watch for the May release of the RAI User's Manual for October 1, 2019. Remember you **MUST** use the 10/1/2018 RAI Manual through September 30th.
- Review the new and updated items guidance in the 10/1/2019 RAI User's Manual. Involve your team!

And???

- Start attending PDPM education sessions – include all team members that will be involved in the MDS coding as well as reimbursement specialists. There are lots of them out there so participate in more than one. This is a process that will take several learning opportunities to fully grasp what PDPM is then refreshers to reinforce. CMS will be doing more trainings as well.
- Remember: Have a spare for both MDS and reimbursement activities/processes.
- Use the resources provided on the next 3 slides. Use the MDS Items used in PDPM handout as a reference.
